

Respon gelombang elektromagnetik vlf dua dimensi terhadapa model goa di daerah karst dengan menggunakan metode elemen hingga.

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=105396&lokasi=lokal>

Abstrak

It has been shown the response of two dimension a VLF electromagnetic wave to homogenous and isotropic limestone models (karst area) with both air cavities (cave) only and air civities(cave) with a river flow in the cave.....
