Based on Russell Schutt's Investigating the Social World, the most successful social research text to have been published in a generation, The Practice of Research in Criminology and Criminal Justice, Second Edition has been thoroughly revised and adapted specifically for criminal justice courses and programs. The authors originally wrote this book to teach research design and techniques within the context of substantive criminology and criminal justice issues of interest to students and the field. The Practice of Research in Criminology and Criminal Justice, Second Edition is an essential text for undergraduate and graduate students taking a research methods course in criminology or criminal justice.
