

Berita televisi sebagai hiperrealitas: studi kasus berita televisi tentang banjir

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=113745&lokasi=lokal>

Abstrak

This research intends to reveal how simulation process works on TV news. Emplouing Baudrilliards's theory on hyperreality and taking Metro TV as a case study, it concludes that news reality on TV is manufactured by simulation process called simulacra. In other words, TV news itself is a production of hyperreality.
