## Berita televisi sebagai hiperrealitas: studi kasus berita televisi tentang banjir

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=113745&lokasi=lokal

\_\_\_\_\_

## Abstrak

This research intends to reveal how simulation process works on TV news. Employing Baudrilliards's theory on hyperreality and taking Metro TV as a case study, it concludes that news reality on TV is manufactured by simulation process called simulacra. In other words, TV news itself is a production of hyperreality.
