

Exploring a modest balance for trade in tobacco, anti-tobacco smuggling and health concerns in light of the Dominican Republic-cigarettes case

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=118418&lokasi=lokal>

Abstrak

In this paper, the author considers that if we are to realize the goal of the alleviation of the health threat resulting from tobacco use, a modest, but possibly useful start of balance between free trade in tobacco controls would be to explore a more lenient space for tobacco control policy from the existing dichotomy contexts within the WTO legal order.....
