

Identification of lead and cadmium levels in white cabbage (*Brassica rapa L*), soil, and irrigation water of urban agricultural sites in the Philippines

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119253&lokasi=lokal>

Abstrak

Urban agriculture comprises a variety of farming systems, ranging from subsistence to fully commercialized agriculture. Pollution from automobile exhaust, industrial and commercial activities may affect humans, crops, and water in and around urban agriculture areas.....
