

Penggunaan skema threshold dan enkripsi blumglodwasser untuk meningkatkan ketahanan dan keamanan komunikasi data pada arsituktur pasis

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119444&lokasi=lokal>

Abstrak

This paper has designed a system to use PASIS architecture and BlumGoldwasser algorithm to raise security and durability. A data file will be encrypted using Blum-Goldwasser algorithm and then will be divided to be several files using PASIS algoritm....
