

Analisis penerapan sistem presidensial dalam menjaga stabilitas pemerintahan

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=119499&lokasi=lokal>

Abstrak

Presidential system with multiparty system has been argued as a weak combination. Having latin America countries as vigorous examples of the instability for the two mixtures, several scholars of comparative politics, including Juan Linz and Arend Lijphart, argued that presidential democracies are inherently less stable and representative than parliamentary regimes...
