

Dampak penatalaksanaan pasien adiksi Napza terhadap Burnout syndrome pada petugas di Rumah Sakit Ketergantungan Obat (RSKO) Jakarta

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=120708&lokasi=lokal>

Abstrak

Burnout is a psychological term for the experience of long -term exhaustion and diminished interest, usually in the work context. Previous research showed that doctor and nurses seem to be more prone to have burnout syndromes than others....
