

Perkiraan dampak kebijakan proteksi dan promosi terhadap ekonomi hortikultura Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=121549&lokasi=lokal>

Abstrak

Trade liberalization and economic crisis generate greater challenges in agricultural development in Indonesia. Despite the remaining high tariff rate on Indonesian agricultural products as stated in the WTO agreement, this country applied low import tariff rates of 0-5 % during the 1998-2004 for almost all its agricultural product, except for rice and sugar which are increased to 25-30%....
