

The characteristics of poverty and its alleviation in Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=121572&lokasi=lokal>

Abstrak

This paper is written based on the review of some studies, literatures and secondary data from some sources. For more than three decades, some efforts have been done and successfully reduced the number of poverty, from 40 percent in 1970s to 11 percent in 1996.....
