The characteristics of poverty and its alleviation in Indonesia

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=121572&lokasi=lokal

Abstrak

This paper is written based on the riview of some studies, literatures and secondary data from some sources. For more than three decades, some efforts have been done and succesfully reduced the number of poverty, from 40 percent in 1970s to 11 percent in 1996.....
