

Persepsi mahasiswa FMIPA Universitas terbuka terhadap layanan belajar dalam upaya meningkatkan angka partisipasi mahasiswa

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=122154&lokasi=lokal>

Abstrak

Learning support system is essential for students learning at distance. It is believed that the qualities of learning support will greatly influence the total number of students. This article describes students perception of the learning supports offered by the Faculty of Mathematics and Natural Science of Universitas Terbuka. The result shows that students were not satisfied with the service of online tutorials due to its accessibility and content.
