

Dimethyl ether (DME) dari batubara sebagai bahan bakar gas alternatif selain LPG

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=122410&lokasi=lokal>

Abstrak

This paper describes an abundant coal resource of Indonesia, consumption, production and its ekspor. It describes briefly the complexity of development arrangement and priority setting in RAPBN, includes the large amount of subsidy - especially oil - which has to be taken into account each year.....
