

Penelitian joint sealant untuk sambungan perkerasan betom semen

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=128748&lokasi=lokal>

Abstrak

Joint sealant is used for concrete pavement joints. To fulfill joint sealant requirements, laboratory tests have been carried out except weathering test, therefore for this purpose, experiments by simulation on concrete pavement is required in order to conform to all requirements for use in sealing joints in concrete pavements...
