

Pengaruh unsur Zr pada paduan U-Zr dan interkasinya dengan logam Al terhadap pembentukan fasa

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=128963&lokasi=lokal>

Abstrak

Influence of Zr element at U-Zr alloys and it interaction with the Al metal to phase forming. Have been done research of Zr element addition influence at U-Zr alloys and its interaction with the composition of 2,6,10,14 and 55% w Zr respectively are added by Al metal with the comparison of U-Zr and Al metal as one compared to half....
