

Peningkatan mutu ikan asap melalui pemanfaatan peralatan dan pengaturannya secara sanitasi dan higienis

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=130101&lokasi=lokal>

Abstrak

About 4.4tons smoked fish were marketed perday in Semarang, Central Java. In terms of food stock and economic activity of lower income people it gave a positive value, but the processing method of smoked fish was not sanitary and hygienic. Therefore, the products quality was not suitable to be consumed....
