

Bentuk adaptasi lingkungan pada permukiman tradisional di danau Toba

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=132337&lokasi=lokal>

Abstrak

Batak tradisional settlements around Toba Lake have pattern and specific forms. Those are very influenced by some supporting factors, ie. environment factors, landform, potential resources and accessibility. There are also important elements that must exist within. That elements a result of the adaptation process of Batak Toba communities to their environment
