

An introduction to health planning for developing health systems

Green, Andrew, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20129895&lokasi=lokal>

Abstrak

Both developing countries and those in transition struggle to meet the health needs of their populations with minimal resources available. Planning by the public sector should enable decisions to be made, but is often poorly practised. This book provides accessible techniques to improve planning processes and puts this in the wider global context.
