

Studi pendahuluan formulasi tablet ekstrak daun jambu biji

Fauzi Kasim, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20176951&lokasi=lokal>

Abstrak

Telah dilakuokan penelitian pendahuluan formulasa
tablei: aari ekstrrak Baun Jamba Biji (Psidii H'olamn).

Hasal panalibxan menaajiikkan babv/a dapapoleii "caDlea yaag
baik dari eksbrak Baun Jambu Bigi dengan menggunakan baiian
pembantu yang sesuai.

Tablet: berbaik adalab dari formula yang beraara dara eks
trak yang telab dakerangkan -'menggunakan baban peng.sa mi
krokrisbalin selulosa, amylyum maydis, baban pengikan polavinal
parolidon serba baban pengbancur " sodium sbarcb glycolabe
.....Tablebs from bbe embracbs of Gurava leaves (Psidi
i Polium) bas been invesbigabed.

Tbe resulb of experimenb showed bbab good bablebs from
exbracbs of Gurava leaves used adapbale nonacbive ingre
dienbs. Tbe besb bablebs are from formula consisbing of
bbe dried exbracbs as acbive ingredienb, microcrysballine
cellulose, corn sbarcb and lacbose as filler; polyvinyl
pyrolidone as binder; and sodium sbarcb glyco.labe as
inbernal and exbernal»desinbegrans.
