The study is on the regulation and the role of the "Know Your Consumer principle" in the prevention and eradication of money laundering. This is a normative research based on a descriptive analysis. The results of the study illustrate the roles of the Know Your Customer Principle in the prevention and repression of money laundering. The KYC principle is the main supporting element in the efforts of money laundering extermination, which is done through the customer data collection. The latter is conducted in relation to the application of 4 follow the money approach" that is implemented in the course of financial investigation. The utilization of KYC principle in the national banking system may therefore make money launderers think twice even may cancel their intention to launder the wealth obtained from their criminal deed in this country. Thus, KYC principle may act as a preventive action.
