Abstrak

Independent state auxiliaries agencies status, may it be as lembaga (state institution), badan (state auxiliary body), or komisi (state commission) on its applications has long been a major problem, especially after amendment of 1945 Constitution it should be clear whether it is an auxiliary or main institution, and its independency as well that mentioned in the scope of constitution. In constitutional and administrative law reform need to put emphasis on the solution focused that must be viewed as achievable and clarity by constitutional and administrative lawyers. This article focuses on the arising problems regarding position and categorization of state auxiliary or main institution, which have been interpreted roughly within the scope of interpretation of 1945 Constitution (amendment).
