ABSTRACT

This study aims to discuss the implementation of outsourcing in Strategic Business Unit Garuda Sentra Medika. Positivist approach is used in this research with qualitative data collection techniques through in-depth interviews. This research is aimed at describing the application of outsourcing in Strategic Business Unit Garuda Sentra Medika. The results of the analysis of the application of outsourcing run well. This can be seen from the indicators that are used as a reference in the application outsourcing. The indicators include outsourcing planning, strategy selection, cost analysis, the selection of service providers, the negotiation phase, the transition of resources and management relations. Generally, these indicators have been applied properly. Nevertheless, there are two disadvantages in the application of this outsourcing. They are the granting of guarantees and employee payroll outsourcing. The application of outsourcing runs well due to the existence of oversight conducted by external parties and internal parties.</i>
