**ABSTRAK
**

Studi ini bertujuan untuk mengetahui gambaran penyimpanan obat di gudang farmasi RS ASRI tahun 2011. Hasil penelitian menemukan sistem penyimpanan obat tidak memenuhi indikator penyimpanan obat yang efisien, ini tercermin dari (i) ketidakcocokan antara obat dengan kartu stok, (ii) terdapat beberapa obat kadaluarsa, (iii) sistem penataan gudang belum sesuai standar. Studi ini menyarankan agar gudang dibuat sesuai persyaratan dan dilengkapi dengan saran adan prasarana yang dibutuhkan.
