Abstrak

Penelitian ini membahas formulasi kebijakan bantuan penagihan pajak berdasarkan persetujuan penghindaran pajak berganda (P3B) di Indonesia. Tujuan penelitian adalah menganalisis formulasi kebijakan bantuan penagihan pajak berdasarkan P3B yang telah disepakati oleh Indonesia. Penelitian ini menggunakan pendekatan kualitatif dengan jenis penelitian deskriptif. Pengumpulan data dilakukan melalui wawancara mendalam dan literatur yang berasal dari artikel, buku, peraturan dan sumber lain.

Hasil penelitian menyimpulkan bahwa adanya pasal bantuan penagihan pajak di P3B Indonesia dan di dalam Multilateral Convention, maka diperlukan aturan domestik yang mengatur tentang bantuan penagihan pajak. Per-42/PJ/2011 membatasi bantuan penagihan pajak untuk jenis pajak yang sudah diatur khusus dalam pasal bantuan penagihan pajak di P3B dan berlaku untuk penduduk dari negara pihak yang terikat P3B. Tindakan Bantuan penagihan pajak masih bersifat pemantauan pembayaran pajak, belum sampai pada tindakan penagihan aktif dikarenakan belum ada basis hukum untuk melegalkan penerbitan SKP atau instrumen legal lainnya sebagai dasar penagihan dalam rangka bantuan penagihan pajak.
