## Abstrak

Pencegahan peredaran narkoba di Lembaga Pemasyarakatan X menggunakan mekanisme pengamanan seperti halnya Lapas lainnya dan strategi pembinaan. Metode pembinaan yang dilaksanakan adalah One Stop Center (OSC), dimana narapidana selain dibina dengan pembinaan konvensional sebagaimana layaknya Lapas nmum juga mendapatkan pembinaan bernpe rebabilita.si sosial dan rebabilitasi medis dalam satu atap. Program pembinaan yang dilaksanakan bartujuan positif untuk memperbaiki sikap, tingkah laken, pola berpikjr dan sudut pandang narapidana dalam memandang suatu pennasalan dan kenyataan hidup. Dalarn tesis ini ada dua pertanyaan panelitian yang hendak dijawab yaitu bagaimana pelaksanaan manajemen pengamauan dalam upaya pencegahan peredaran gelap narkoba di Lembaga Pemasyarakatan X dan apa yang menjadi kendala dalam pencegahan terhadap peredaran gelap narkoba ditinjau dari manajemen pengamanan Lembaga Pemasyarakatan X.

Metoda yang digunakan adalah meiOOe kualitatif, teknik peugumpulan data dilakukan dengan wawancara terbadap infurman penelitian dengan menggunakan pedaman wawancaro.

Dari basil dalam tesis ini dapat diketabui bahwa terjedinya peredaran gelap narkoba di Lembaga Pemasyarakaka!Bn X adalah dengan memanfaatkan situasi kepadatan kunjungan, terutama peda jam kunjungan kontak langsung. Serta tidak dilakukannya pengawasan dan pemeriksaan terlladap narapidana dan barang bawaan serta petugas yang keluar masnk keda!am area blok hunian narapidana. Selain itu pibak Lembaga Pemasyarakatan X juga mengalanri kendala barupa rerbatasnya angganm, sumber daya manusia, serta kunmgnya sarona dan prasarana.

.....Prevention of drug circulation in the Penitentiary for X using the security mechanisms as well as other prisons and training strategy. Coaching methods are implemented are the One Stop Center (OSC), which fostered the development of inmates in addition to conveotional as is the general prison also received guidance in the form of social rehabilitation and medical rehabilitation IUlder one roof. Coaching program is implemented positive aims to improve the attitude, behavior and thinking patterns in a prisoners' point of view looking at a problem and the fucts of life.

In this thesis, there are two thesis questions to be answered is how the implementation of security management in efforts to prevent illicit traffic of drugs in correctional institintions X and what's become an obstacle in the prevention of i illicit traffic of drugs reviewed the security management of correctional institutions X.

The method used is qcalitative method of data collection techniques against the infurmant interview conducted with the study using the interview guide.

From the results of this thesis is that the illicit traffic of drugs in correctional institurions is to utilize the X-density traffic situations, especially in the hours of direct contact requests. And not doing surveillance and inspection of inmates and luggage as well as officers who came out into the residential area of prisoners'

block. Besides the Correctional institution X also has many constraints such as limited budget, human resources, and lack of facilities and infrastructure that support the prevention of illicit traffic of drugs.
