Abstrak

Penelitian ini dilakukan untuk mengetahui Hubungan Tingkat Jenjang Karir dengan Ketepatan Konsep Asuhan Keperawatan di Paviliun Anggrek RSUP Fatmawati. Terhadap semua perawat pelaksana di Paviliun Anggrek sejumlah 42 orang. Penelitian ini merupakan penelitian kuantitatif dengan desain study cross sectional. Kerangka konsep penelitian ini terdiri dari variabel independen yaitu jenjang karir perawat, usia, pendidikan, pelatihan, perilaku, kinerja sehari-hari, variabel dependen ketepatan konsep asuhan keperawatan. Hasil penelitian menunjukkan tidak ada hubungan antara jenjang karir dengan ketepatan konsep asuhan keperawatan, Non Perawat Klinik/Perawat Klinik 1 dan Perawat Klinik 2/Perawat Klinik 3, ketepatan asuhan keperawatan yang kurang memiliki peluang yang sama antara Non Perawat Klinik /Perawat Klinik 1 (56 %) dan Perawat Klinik 2 /Perawat Klinik 3 (46,2 %). Variabel lain yang berhubungan dengan ketepatan asuhan keperawatan dari asesor eksternal adalah pendidikan. Saran dari hasil penelitian ini adalah agar dilakukan evaluasi terhadap indikator asesmen internal jenjang karir perawat klinik di RSUP Fatmawati.

.....

The aim of this research is to know the correlation between clinical nurse's level career and the accuracy of nurse care concept in Anggrek Ward, Fatmawati General Hospital. This research's involving 42 nurses in Anggrek Ward. This research is quantitative research with a cross sectional study design. The research contains independent variable (nurse's level career, age, education, training, attitude, daily working habit), dependent variable (accuracy of nurse care). The result shows that there are no correlation between clinical nurse's level career and the accuracy of nurse care concept. They have the same opportunity for having less accuracy of nurse care concept whic is 56% for non clinical nurse/clinical nurse1 and 46,2% for clinical nurse 2/clinical nurse 3. The other variables related to the accuracy of nurse care concept is affected by education. The author suggested that internal assesment indicator for clinical nurse's level career to be evaluated.
