Abstrak

"Home care clinicians everywhere depend on "the little red book" for essential, everyday information: detailed standards and documentation guidelines including ICD-9-CM diagnostic codes, current NANDA-I and OASIS information, factors justifying homebound status, interdisciplinary goals and outcomes, reimbursement considerations, and evidence-based resources for practice and education. Completely revised and updated, this handbook now includes the most recently revised Federal Register Final Rule and up-to-date coding guidelines."--BOOK JACKET.
