Abstrak

Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down-- overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth-- and the actual cause of her disease. After years of struggling to forge her own path while trying to meet everyone else's expectations, she had the realization, as a result of her epiphany on the other side, that she had the power to heal herself-- and that there are miracles in the universe that she had never even imagined.
