Abstrak

Kesehatan adalah keadaan sehat, baik secara fisik, mental, spiritual maupun sosial yang memungkinkan setiap orang untuk hidup produktif secara sosial dan ekonomis. Rencana Strategis Kementerian Kesehatan periode 2010 - 2014 mengamankan Program Kefarmasian dan Alat Kesehatan untuk dapat meningkatkan ketersediaan, pemerataan, dan keterjangkauan obat dan alat kesehatan serta menjamin keamanan atau khasiat, kemanfaatan, dan mutu sediaan farmasi, alat kesehatan, dan makanan. Kementerian Kesehatan melalui Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan memiliki sasaran utama menjamin semua sediaan farmasi, makanan dan perbekalan kesehatan memenuhi syarat serta menjamin ketersediaan obat esensial dan alat kesehatan dasar di setiap daerah.

Praktek Kerja Profesi Apoteker (PKPA) dilakukan pada 15 Juli - 26 Juli 2013 di Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan terutama di Direktorat Bina Obat Publik dan Perbekalan Kesehatan bertujuan agar calon apoteker memperoleh gambaran tentang peran dan tugas apoteker mengenai pelayanan kefarmasian yang terkait dengan pemerataan, ketersediaan dan keterjangkauan obat dan perbekalan kesehatan.

.....

Health is good health condition, both physically, mentally, spiritually and socially to enable more people to live socially and economically productive. Ministry of Health Strategic Plan 2010 - 2014 period mandated Pharmaceutical and Medical Devices Program to improve the availability, equity and affordability of medicines and medical devices as well as ensure the safety or efficacy, usefulness and quality of pharmaceutical preparations, medical devices and food. The Ministry of Health through the Directorate General of Pharmaceutical and Medical Devices has a primary goal of all pharmaceutical preparations guarantees, food and medical supplies qualified and guarantees availability of essential drugs and basic medical equipment in each area.

Pharmacist Internship Program (PKPA) conducted on July 15th to July 26th 2013 in the Directorate General of Pharmaceutical and Medical Devices, especially in the Directorate of Public Medicine and Health Product aims to prospective pharmacists gain an overview of the role and duties of pharmacists about pharmacy services related to equity, the availability and affordability of medicines and medical supplies.
