Abstrak

Skripsi ini membahas mengenai formulasi kebijakan penetapan tarif retribusi pelayanan pemakaman dan pengabuan mayat di Kota Bogor. Penetapan tarif yang menyebabkan kenaikan dirasakan memberatkan masyarakat dan belum memenuhi aspek keadilan. Tujuan penelitian ini adalah menggambarkan proses formulasi penetapan tarif retribusi pelayanan pemakaman dan pengabuan mayat beserta pertimbanganpertimbangan yang melandasinya. Pendekatan yang digunakan dalam penelitian ini adalah pendekatan post positivis dengan metode pengumpulan data wawancara mendalam, observasi dan studi pustaka dengan teknik analisis data kualitatif. Hasil penelitian menunjukkan pertimbangan keadilan (fairness) belum menjadi landasan dalam perumusan tarif yang diakibatkan oleh proses pembahasan yang menitikberatkan pada perspektif subyektif tanpa didasari data banding.

.....This thesis discuss policy formulation on defining rates of burial and cremation charges in Bogor. Charges that have been imposed is being felt as an economic burden and yet met the fairness aspect. The purpose of this research is to describe formulation process on defining rates of burial and cremation charges and also reasoning behind of it. The approach used in this research is post positivis approach with method of data collection using in-depth interviews, observation and literature study and being processed using qualitative data analysis techniques. Results of this research shows that the consideration of fairness aspect has not form the basis on formulating charges which is caused by the process of discussion that have been focused on the assumption and not being followed by comparable data.
