

Linux kernel development : a thorough guide to the design and implementation of the Linux Kernel

Love, Robert, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20374148&lokasi=lokal>

Abstrak

Linux Kernel Development details the design and implementation of the Linux kernel, presenting the content in a manner that is beneficial to those writing and developing kernel code, as well as to programmers seeking to better understand the operating system and become more efficient and productive in their coding. The book details the major subsystems and features of the Linux kernel, including its design, implementation, and interfaces. It covers the Linux kernel from both angles, theoretical and applied, which should appeal to readers with a variety of interests and needs.
