Abstrak

Praktik kerja profesi apoteker di PT. Taisho Pharmaceutical bertujuan untuk mengetahui peran apoteker dalam industri farmasi. Di Industri farmasi apoteker memegang peran penting dalam proses produksi, pengendalian mutu dan pemastian mutu dari produk farmasi yang dihasilkan. Di dalam proses produksi, salah satu peran apoteker adalah menjamin proses produksi dijalankan sesuai dengan kaidah Cara Pembuatan Obat yang Baik. Oleh karena itu, proses produksi selalu didokumentasikan dalam batch record yang terdiri dari dokumen pengelolaan induk dan dokumen pengemasan induk. Dokumen pengemasan induk berisi informasi terkait proses pengemasan tiap produk spesifik yang disusun secara jelas untuk menghasilkan produk akhir yang aman, bermutu dan berkhasiat serta ekonomis. Dalam mencapai tujuan tersebut, PT. Taisho Pharmaceutical melakukan simplifikasi dokumen pengemasan induk yang mengacu pada konsep lean manufacturing. Selama program praktik kerja ini, telah berhasil dilakukan simplifikasi dokumen pengemasan induk dari produk theragran tablet, engran tablet, kenacort tablet, myco-z cream, kenalog in oral base, stugeron tablet, Imodium tablet, daktarin cream 5 gram, daktarin cream 10 gram, dan nizoral ss 1%.

.....

Pharmacist internship in PT. Taisho Pharmaceutical aims to determine the role of pharmacists in the pharmaceutical industry. Pharmacist in pharmaceutical industry plays an important role in the production process, quality control and quality assurance of pharmaceutical products produced. In the production process, one of the pharmacist's role is to ensure that the production process is executed in accordance with the principles of Good Manufacturing Practice. Therefore, the production process is always documented in the batch record consisting of manufacturing instruction and packaging instruction. Packaging instruction contains information about packaging process for each specific product are clearly arranged to produce a final product that is safe, quality, efficacious and economical. In achieving these objectives, PT. Taisho Pharmaceutical did simplification for the packaging instruction with the concept of lean manufacturing. During internship, successfully did simplification of packaging instruction of theragran tablets, engran tablets, kenacort tablets, Myco-z cream, kenalog in oral base, stugeron tablets, Imodium tablets, daktarin cream 5 grams, 10 grams of daktarin cream, and Nizoral SS 1%.
