Abstrak

Praktik Kerja Profesi Apoteker dilaksanakan di Direktorat Bina Obat Publik dan Perbekalan Kesehatan Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan Kementerian Kesehatan Republik Indonesia. Kegiatan PKPA ini bertujuan agar mahasiswa profesi apoteker dapat memahami tugas pokok dan fungsi Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan, khususnya Direktorat Bina Obat Publik dan Perbekalan Kesehatan, serta memahami peran apoteker di direktorat tersebut.

Tugas khusus yang diberikan berjudul biaya operasional dalam pengelolaan obat publik dan perbekalan kesehatan di instalasi farmasi kabupaten/kota. Tujuan tugas khusus ini adalah untuk mengetahui komponen biaya operasional yang dibutuhkan dalam menjalankan kegiatan di instalasi farmasi kabupaten/kota dan memahami dampak jika komponen biaya tersebut tidak diperhitungkan dengan tepat.

Pharmacist Professional Practice was implemented in Development Directorate of Public Medicine and Health Provisions, Directorate of Pharmaceutical Care and Medical Devices of Ministry of Health , Republic of Indonesia. PKPA activity was intended that students can understand basic tasks and functions of Directorate of Pharmaceutical Care and Medical Devices of Ministry of Health, especially Development Directorate of Public Medicine and Health Provisions of Ministry of Health Republic of Indonesia, and understand the roles of pharmacist in the directorate.

The title of special assignment was operating costs in the management of public medicine and medical provisions in the pharmacy district/city. The aims of this task were to determine the component of operating cost in the public medicine and medical provisions management at pharmacy district/city and to understand the impact if these fees are not calculated correctly.
