Abstrak

Isolasi sosial adalah salah satu diagnosis keperawatan yang ditemukan pada klien skizofrenia. Tujuan karya ilmiah adalah diketahuinya hasil asuhan keperawatan berupa Terapi Aktivitas Kelompok Sosialisasi (TAKS), Social Skill Training (SST) dan Family Psychoeducation (FPE) serta peran kader kesehatan jiwa merawat klien isolasi sosial melalui pendekatan Community as Partner Model. Pemberian Terapi Aktivitas Kelompok Sosialisasi (TAKS), tindakan keperawatan spesialis Social Skill Training (SST) bagi klien, dukungan sosial keluarga melalui Family Psychoeducation (FPE), serta kegiatan kader kesehatan jiwa dengan cara home visite pada 4 klien isolasi sosial dengan skizofrenia. Hasil yang diperoleh menunjukkan penurunan tanda dan gejala disertai peningkatan kemampuan sosialisasi klien. Direkomendasikan penelitian mengenai asuhan keperawatan klien isolasi sosial disertai pemberdayaan kader kesehatan jiwa dengan responden yang lebih banyak.

.....
