

Toxicogenomics ; a powerful tool for toxicity assessment / editor, Saura C. Sahu

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20395847&lokasi=lokal>

Abstrak

Toxicogenomics is the integration of genomics to toxicology. This technology is a powerful tool for collecting information from a large number of biological samples simultaneously and thus it is very useful for large-scale screening of potential toxicants.

Toxicogenomics : a powerful tool for toxicity assessment provides up-to-date state-of-the-art information presented by the recognized experts, and is therefore an authoritative source of current knowledge in this field of research. The potential link between toxicology, genetics and human diseases makes this book very useful to investigators in many and varied disciplines of science and toxicology.
