Abstrak

[This work offers a synthesis of the current approaches toward an integration of international trade and climate change, with a view to fostering potential improvements in policies and institutions affecting these. A number of pragmatic measures are proposed with reference to the WTO and the United Nations Framework Convention on Climate Change (UNFCCC) regimes, which are expected to contribute toward enhanced climate change governance, as well as promoting international trade., This work offers a synthesis of the current approaches toward an integration of international trade and climate change, with a view to fostering potential improvements in policies and institutions affecting these.
