

Turbulent impinging jets into porous materials

de Lemos, Marcelo J.S., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20398986&lokasi=lokal>

Abstrak

This short book deals with the mathematical modeling of jets impinging porous media. It starts with a short introduction to models describing turbulences in porous media as well as turbulent heat transfer. In its main part, the book presents the heat transfer of impinging jets using a local and a non-local thermal equilibrium approach.
