

Computer applications for handling legal evidence, police investigation and case argumentation

Nissan, Ephraim

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20399758&lokasi=lokal>

Abstrak

This book provides an overview of computer techniques and tools, especially from artificial intelligence (AI), for handling legal evidence, police intelligence, crime analysis or detection, and forensic testing, with a sustained discussion of methods for the modelling of reasoning and forming an opinion about the evidence, methods for the modelling of argumentation, and computational approaches to dealing with legal, or any, narratives.
