

Kondisi pangan global dan agenda pangan untuk Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20399841&lokasi=lokal>

Abstrak

Food and Agriculture Organization (FAO) estimated that 925 million people are in the state of chronic hunger in 2010. The World was struck by food, financial and environmental crisis in 2007-2008, and climate change has been exacerbating the situation of hunger. New problems and challenges emerged...
