

Energy for development : resources, technologies, environment

Toth, Ferenc L., editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20402017&lokasi=lokal>

Abstrak

This book includes studies quantifying the role of energy in socioeconomic development, analysis of the interplay between supranational and national institutions in policy implementation, the energy implications of demographic trends such as urbanisation, and exploration of supply-side issues such as the potential role of nuclear energy and 'cleaning' fossil fuel energy generation through carbon capture.
