

Environmental modeling : using MATLAB®

Holzbecher, Ekkehard, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20402023&lokasi=lokal>

Abstrak

The book has two aims, to introduce basic concepts of environmental modelling and to facilitate the application of the concepts using modern numerical tools such as MATLAB. MATLAB was chosen as the major computer tool for modeling, firstly because it is unique in its capabilities, and secondly because it is available in most academic institutions, in all universities and in the research departments of many companies. Text and figures were adapted to the recent MATLAB® version.
