

Environmental monitoring using GNSS : global navigation satellite systems

Awange, Joseph L., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20402024&lokasi=lokal>

Abstrak

This book presents the concepts of GNSS in a simplified way that can, on the one hand, be understood and utilised by environmentalists, while on the other, outlines its potential applications to environmental monitoring and management for those engaged more with its technology, which hopefully will further energise the already innovative research that is being carried out.
