ABSTRAK

Pendidikan sebagai salah satu kebutuhan untuk masa depan manusia memiliki peranan penting dalam kehidupan manusia. Setiap manusia berusaha untuk menempuh pendidikan. Jenjang pendidikan awal yang ditempuh adalah pendidikan dasar dan dilanjutkan dengan pendidikan menengah. Setiap manusia memiliki karakteristik yang berbeda-beda, karakteristik yang berbeda menyebabkan perbedaan dalam proses pengambilan keputusan. Proses pengambilan keputusan menghasilkan keputusan untuk memilih lokasi SD dan SMP. Dari berbagai SD dan SMP yang ada dipilih sekolah yang memiliki karakteristik tertentu dan sesuai dengan karakteristik pemilih. Permasalahan dalam penelitian ini adalah bagaimana pola pemilihan SD dan SMP penduduk Kelurahan Jatinegara. Penelitian ini dilakukan untuk mengetahui pola pemilihan SD dan SMP penduduk di Kelurahan Jatinegara. Metode penelitian ini menggunakan analisis deskriptif dan analisis spasial. Hasil penelitian ini menunjukkan karakteristik penduduk perumahan teratur yaitu pendidikan dan pendapatan berpengaruh terhadap jarak SD yang dipilih dari tempat tinggal. Penduduk perumahan teratur memilih SD yang terletak di permukiman teratur dan tidak banjir. Karakteristik penduduk perumahan tidak teratur tidak berpengaruh terhadap karakteristik lokasi SD yang dipilih. Penduduk perumahan tidak teratur memilih SD yang jaraknya dekat dari tempat tinggal, terletak di permukiman tidak teratur dan tidak banjir. Karakteristik penduduk perumahan teratur tidak berpengaruh terhadap karakteristik lokasi SMP yang dipilih. Penduduk perumahan teratur memilih SMP yang jaraknya jauh dari tempat tinggal, terletak di permukiman teratur dan tidak banjir. Karakteristik penduduk perumahan tidak teratur yaitu pekerjaan dan pendapatan berpengaruh terhadap jarak SMP yang dipilih dari tempat tinggal. Penduduk perumahan tidak teratur memilih SMP yang terletak di permukiman tidak teratur dan tidak banjir.
