Abstrak

Penelitian ini menganalisa faktor penghambat keunggulan daya saing industri, faktor kekuatan, kelemahan, peluang dan ancaman dalam meningkatkan daya saing Industri Kecil Menengah Pangan Olahan Hasil Laut di Provinsi Kepulauan Bangka Belitung. Analisis yang dilakukan menggunakan analisis basis ekonomi, model diamond porter, dan analisis SWOT. Berdasarkan analisis SWOT, industri kecil menengah pangan olahan hasil laut di Provinsi Kepulauan Bangka Belitung posisinya pada kuadran IV, ini berarti dengan segala daya upaya, pelaku IKM dan semua stakeholder harus berusaha meminimalisir segala kelemahan dan berupaya keras untuk mengatasi segala macam ancaman. Hasil Analisis SWOT menyarankan bahwa perlu dilakukan program-program untuk pemberdayaan klinik IKM, differensiasi produk, kerjasama dengan industri pariwisata, dan pembentukan kluster industri pangan olahan hasil laut.
