[ABSTRAK

Dalam pengembangan bisnis seorang entrepreneur membutuhkan alat atau rencana agar usahanya kelak akan berhasil. Alat ini adalah perencanaan dan strategi dalam sebuah model dan rencana usaha. Model perencanaan dan strategi ini membutuhkan informasi, data, analisa, dan penelitian supaya dapat dipersiapkan dengan baik. Model perencanaan dan strategi pengembangan usaha yang akan dikembangkan adalah milik Klinik Bidan Jojor B. Sihombing. Klinik Bidan Jojor B. Sihombing adalah sebuah klinik bersalin yang sudah berdiri dari tahun 1991, berlokasi di Bulak Kapal Permai Blok DD No. 1 Tambun Selatan, Bekasi. Klinik berencana mengembangkan 2 klinik baru yaitu, di Lambangsari dan Margahayu. Terdapat beberapa masalah yang hendak dikaji, yaitu; apakah secara finansial investasi ini layak, apakah klinik mempunyai standar manajemen baku dalam pengembangan klinik baru, apakah competitive advantage klinik, dan bagaimanakah potensi dari lokasi ini? Akan dikaji secara mendalam mengenai lingkungan klinik secara menyeluruh baik internal maupun eksternal. Analisis pengembangan usaha akan dijelaskan melalui model usaha dan rencana usaha yang akan diuraikan ke dalam 4 macam rencana, yaitu; pemasaran, operasional, keuangan dan organisasi. Akan ada 3 proyeksi keuangan yang akan digunakan, yaitu; pesimis, realistis, dan optimis. Acuan analisa kelayakan finansial akan ditentukan oleh; Net Present Value, Internal Rate of Return, Profitability Index, dan Payback Period, dan analisis laporan keuangan. Melalui perhitungan secara keuangan semua asumsi yang digunakan ternyata feasible. Dengan pelayanan prima dan fasilitas yang memadai terbentuklah competitive advantage klinik. Dapat disimpulkan Klinik Bidan Jojor B. Sihombing merupakan usaha yang layak untuk dijalankan. Dengan studi kelayakan ini maka klinik akan mempunyai acuan standar pengelolaan klinik dan pertimbangan rencana pengembangan usaha.
