ABSTRACT

KLM is a Dutch airline company, operating since 1919. KLM has been named as the oldest airline in the world. In improving it's services, KLM made 35 advertisements with the #happytohelp topic. Using the qualitative method, this paper tends to give description of three KLM advertisements based on the SPEAKING, formality level of the language variation and code switching theory. The conclusion of this paper is that the three KLM advertisements with #happytohelp topic have the same features and characteristics of the components in SPEAKING. The usage of the formal and informal language variation are both found in the three KLM advertisements. Furthermore the functions of the usage of the code switching are of expressive and metalinguistic function., KLM is a Dutch airline company, operating since 1919.
