Abstrak

Pemerintah bertanggung jawab dalam pembangunan kesehatan, yaitu merencanakan, mengatur, menyelenggarakan, membina, dan mengawasi penyelenggaraan upaya kesehatan yang merata dan terjangkau oleh masyarakat agar tercapai derajat kesehatan yang setinggi-tingginya. Rencana Strategis Kementerian Kesehatan periode 2010 – 2014 mengamanatkan Program Kefarmasian dan Alat Kesehatan untuk dapat meningkatkan ketersediaan, pemerataan, dan keterjangkauan obat dan alat kesehatan serta menjamin keamanan atau khasiat, kemanfaatan, dan mutu sediaan farmasi, alat kesehatan, dan makanan. Praktik Kerja Profesi Apoteker (PKPA) di Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan bertujuan untuk memahami tugas Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan Kementerian Kesehatan RI, khususnya di Direktorat Bina Produksi dan Distribusi Kefarmasian serta memahami peran profesi apoteker dalam melaksanakan pekerjaan kefarmasian di Direktorat Jenderal Bina Kefarmasian dan Alat Kesehatan Kementerian Kesehatan RI, khususnya di Direktorat Bina Produksi dan Distribusi Kefarmasian. Sedangkan tujuan dari tugas khusus adalah memahami pembuatan dan penyajian leaflet dan booklet dan membuat media komunikasi berbentuk leaflet dan booklet sebagai sarana penyebaran informasi mengenai makanan sehat yang ditujukan untuk masyarakat umum.

.....

The Government is responsible for health care development that is planning, organizing, developing, and overseeing the implementation of health care effort that has to be spread evenly and affordable by the community in order to achieve the highest health status. The Strategic Plan of the Ministry of Health for the period 2010-2014 mandated the Pharmaceutical and Medical Devices program to improve their availability, equity, affordability as well as to ensure the safety and efficacy, expediency, and quality of pharmaceutical products, medical devices, and food. The aim of the pharmacy internship in the Directorate General of Pharmaceutical Products and Medical Devices was to understand the duties of the Directorate General of Pharmaceutical Products and Medical Devices, particularly in the Directorate of Pharmaceutical Production and Distribution, and understand the role of pharmacist in carrying out the pharmaceutical services in the Directorate General of Pharmaceutical Products and Medical Devices, particularly in the Directorate of Pharmaceutical Production and Distribution. While the purpose of the specific assignment was to understand the leaflets and booklets manufacturing and presentation, and to create communication media in the form of leaflets and booklets as a means of disseminating information about healthy foods intended for the general public.
