EXECUTIVE SUMMARY

Problem Statement:

The lack of knowledge of the urban communities about the business transformation and revitalization of Pos Indonesia since 2009.

Goal:

To raise public awareness and public knowledge towards business transformation and revitalization of Pos Indonesia

Objectives:

1. Increasing public knowledge about the development of products by 50%

2. Increasing public knowledge about enhancement of the quality of service by 50%

3. Increasing public knowledge about the latest identity of Pos Indonesia, that is ?The Network Company, by 100%

Strategy

1. Message Strategies:

a. Information about the transformation of Pos Indonesia;

b. the new identity of Pos Indonesia as "The Network Company";

c. they have variants of digital-based products to meet the needs of urban communities.

2. Channel Strategies:

- a. Online media to create the effect of word-of-mouth;
- b. media coverage is the most inexpensive and effective publicity strategy;

3. Implementation Strategies:

- a. The program will be started on the 269th Pos Indonesia anniversary;
- b. take advantage of something simple to become the center of attention of many people;
- c. using iconic objects of Pos Indonesia;
- d. harness the power of the visual;
- e. third party endorsement;
- f. public engagement power;
- g. special event to be held on The World Post Day.

Target Audience:

- 1. Jakarta community with range of the age of 15-40 y.o., have outdoor activities as the dominant
- 2. The mass media
- 3. The market of e-commerce

Key Messages:

- 1. Pos Indonesia has been transformed and is now ready to meet the needs of urban communities for shipping services, such as logistics, e-commerce (Plasapos.com), and financial services (Pospay), all of which utilize an online network throughout Indonesia.
- 2. Community: Through this campaign, PT Pos Indonesia proves that they are focusing on service to the urban communities who have high mobility.
- 3. Mass Media: PT Pos Indonesia now has a new, more fresh and modern, appearance with improvement of the quality of service and the development of digital products through their new identity as "The Network Company".
- 4. E-Commerce Market Participants: PT Pos Indonesia now has various products of high quality digital-based services that can facilitate e-commerce entrepreneurs to meet the market demand.
