

Green cities of Europe : global lessons on green urbanism

Beatley, Timothy, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405405&lokasi=lokal>

Abstrak

Timothy Beatley has brought together leading experts from Paris, Freiburg, Copenhagen, Helsinki, Venice, Vitoria-Gasteiz, and London to illustrate groundbreaking practices in urban planning. These cities are creating greenways, improving public transit, conserving energy, instituting "green audits" for government, and strengthening their city centers.

This book offers the U.S. planning community not only a vision of holistic sustainability, but a clear guide to accomplishing it at home.
